CITROËN  
**C3**  
AN INTRODUCTION

**FORGET FUSSY DETAILS.** THE DESIGN OF THE CITROËN C3 IS TAUT, ELEGANT AND BOLD – FREE FROM CLUTTER. AND THEN THERE'S THE AMAZING PANORAMIC ZENITH WINDSCREEN.

A DRAMATIC SWEEP OF GLASS, IT CURVES UP INTO THE ARCH OF THE ROOFLINE, BRINGING MAXIMUM LIGHT AND LANDSCAPE TO THE INTERIOR OF VTR+ AND EXCLUSIVE MODELS. FROM THE FRONT, A STRONG SCULPTED GRILLE AND 'BOOMERANG' HEADLIGHTS ADD UNMISTAKABLE PERSONALITY. CONFIDENT AND ORIGINAL THIS IS PURE CONDENSED CITROËN DESIGN.

## 360 DEGREES OF INSPIRATION. YOU'LL SENSE IT THE INSTANT YOU GET INTO A CITROËN C3: THE INTERIOR IS INCREDIBLY LIGHT AND SPACIOUS.

A GENEROUS GLASS AREA, MADE EXCEPTIONAL BY THE GIANT SWEEP OF THE PANORAMIC ZENITH WINDSCREEN, GIVES GREAT ALL-ROUND VISIBILITY AND BRIGHTNESS. INTELLIGENT DESIGN MAXIMISES SPACE FOR EVERYONE AND EVERYTHING ON BOARD. WITH QUALITY BUILT INTO EVERY CURVE AND SURFACE, THE INTERIOR FEELS GOOD, FROM THE STYLISH FORMS OF THE DASHBOARD AND STEERING WHEEL TO THE SCULPTED SEATS. SUBTLE USE OF MATERIALS SUCH AS CHROME AND LACQUER COMBINE TO HEIGHTEN THE SENSE OF REFINED DESIGN FLAIR.

### > FINE-TUNED SUNSHINE

The panoramic Zenith windscreen on VTR+ and Exclusive models can bring you maximum sunshine, and to make sure nobody gets dazzled, the upper part is subtly tinted. For maximum protection, there is also a slide out panel with integral visors when you need it.

**LIVING, BREATHING INNOVATION.** THE CITROËN C3 IS FULL OF TECHNOLOGY THAT HELPS YOU TRAVEL IN STYLE. EVERYTHING YOU NEED IS CLEAR, INTUITIVE AND EXACTLY WHERE YOU NEED IT TO BE.

➤ **AUTOMATICALLY COOL**

Automatic air conditioning, standard on Exclusive models, maintains a perfect interior environment and is easily adjusted using the two clear, round, multi-function dials that flank a circular back-lit display.

➤ **MYWAY – YOUR WAY**

On VTR+ and Exclusive models, the optional MyWay satellite navigation with 7" colour screen is subtly integrated into the dashboard and can guide you to any European destination.

## > FORM AND FUNCTION

The stunning dashboard design with its bold curves, chrome rimmed dials and intuitive fingertip controls features a host of technology. You can also add navigation, entertainment and communication capability with the optional MyWay colour satellite navigation available on VTR+ and Exclusive models.

## REAL QUALITY GIVES ENDURING PLEASURE. HIGH QUALITY MATERIALS AND STYLISH FINISHES ARE EVERYWHERE IN THE CITROËN C3, OFFERING MAXIMUM COMFORT FOR EVERYONE ON EACH JOURNEY.

THIS BUILT-IN REFINEMENT CREATES A GREAT SENSORY EXPERIENCE, ESPECIALLY AS IT IS ACCOMPANIED BY EXTRAORDINARY SPACE EFFICIENCY, EFFORTLESS FUNCTIONALITY AND THE LATEST TECHNOLOGY.

### › MATERIAL WORLD

Your fingertips will tell you a lot about the materials inside the Citroën C3: tactile, sensuous and built to last.

### › MESSAGE SCENT

The scented air freshener, standard on all models, gives you a choice of fragrances to fine tune the interior – this is a car for every sense.

## > MOVING MUSIC

You can choose your music source by connecting your MP3 player or USB stick to the USB dock in the centre console of VTR+ and Exclusive models. On the same models, the optional Hi-Fi system features a subwoofer and third central channel to bring you all the lows and highs.

## > MAXIMUM COMFORT

The added comfort of a central armrest, standard on Exclusive models, features a handy storage compartment.

## > MADE FOR LIFE

With five people sitting comfortably and all seats up, there's 300 litres of boot space. To increase the volume, just pop down the 1/3-2/3 split/folding rear seat for the ideal configuration. With all seats folded flat you're looking at a load length of 1.19 metres. The removable parcel shelf can be neatly stowed at the bottom of the boot. It's called modularity and it's made for living.

## > SOMEWHERE FOR EVERYTHING

There are stowage spaces all around the interior for valuables and vital items – everything has a home!

CITROËN  
**C3**  
ENVIRONMENTAL

**NEW GENERATION EFFICIENCY.** ADVANCED, AERODYNAMIC AND LIGHT, THE CITROËN C3 USES CITROËN INNOVATIVE THINKING TO MINIMISE ITS ENVIRONMENTAL FOOTPRINT – TAKE THE HDi 90 MANUAL DIESEL ENGINE WHICH PRODUCES JUST 104G/KM CO<sub>2</sub>.

THERE ARE SEVEN ENGINES TO CHOOSE FROM IN THE RANGE, INCLUDING FOUR PETROL AND THREE DIESELS. EACH ONE BRINGS A BALANCE OF PUNCHY PERFORMANCE, MAXIMUM ECONOMY AND LOWER EMISSIONS.

› RIGHT GEAR, RIGHT TIME

In response to the ever increasing drive for economical and ecological improvements, the Citroën C3 Euro 5 manual engines feature fuel economy assistance via the Gear Efficiency Indicator.

This function enables you to reduce your fuel consumption by letting you know the perfect moment to change to the next gear up, without damaging the engine.

## 360 DEGREES OF SAFETY. ALL-ROUND PROTECTION IS ENGINEERED DEEP INTO THE CITROËN C3. ITS IMPACT ABSORBING STRUCTURE IS COMPLEMENTED BY UP TO SIX AIRBAGS, CREATING AN ADVANCED PASSIVE SAFETY SYSTEM.

TWO FRONT AIRBAGS AND TWO LATERAL FRONT AIRBAGS ARE STANDARD ON EVERY MODEL. TWIN SIDE CURTAIN AIRBAGS ARE ALSO STANDARD ON VTR+ AND EXCLUSIVE AND OPTIONAL ON VT MODELS. SO EVERY TIME YOU SET OFF, YOU CAN RELAX – THE CITROËN C3 IS A SAFE PLACE TO TRAVEL.

### > FAMILY FIRST

Child safety is as important to us as it is to you. There are Isofix points in the rear and the seats are designed to maximise protection and comfort for children. A handy child lock button also helps to keep children in safe hands. This is family transport with Citroën inspiration added.

#### › SAFE SMOOTH PARKING

Optional rear parking sensors on Exclusive models give you an audible warning as you approach unseen obstacles in reverse. Even the tightest city spaces are now safe to squeeze into.

#### › ACTIVE ELECTRONICS

A whole range of active safety technology is ready for any crisis. Powerful ABS and Electronic Brakeforce Distribution (EBD), plus Emergency Braking Assistance and automatic hazard warning lights are standard. A warning light and audible signal will tell you if the driver's seat belt is unfastened. For added safety, Electronic Stability Programme is standard on the HDi 110 6-speed manual Exclusive model and optional across the rest of the range. Automatic headlamps and rain-sensitive windscreen wipers are also available on Exclusive models. You can even add a speed limiter (optional on VT, standard on all other models) to the Citroën C3's armoury. Beneath it all you'll feel the Citroën C3's sure footed and inspiring handling that ensures sharp responses and secure roadholding too.

## ENVIRONMENTAL COMMITMENT

### > INTRODUCING A MORE ECOLOGICAL CAR

The Citroën C-Cactus concept, a car designed on ecological principles. It includes a significant proportion of recycled or recyclable materials and, like the plant it is named after, it is low on liquid consumption. At the same time, Citroën C-Cactus is designed to be no more expensive than a mid-range family car. This can be attributed to the use of new materials and to a rational design process using a smaller number of parts. Citroën C-Cactus is an essential vehicle reflecting a new vision of the car, many of its thoughts and themes will appear in modern Citroën vehicles to come.

THE RESULTS ARE A DRAMATIC REDUCTION IN BOTH FUEL CONSUMPTION AND CO<sub>2</sub> EMISSIONS, COMBINED WITH RESPONSIVE PERFORMANCE WHEREVER YOU GO.

On the technology side, we've been equipping more of our vehicles with more environmentally friendly breakthroughs, such as our Electronic Gearbox System (EGS), which boasts impressively greener credentials, with less pollution and up to 5% more economy than a conventional manual gearbox system. In addition, Citroën has expanded the use of the exceptionally efficient, self-regenerating Diesel Particulate Filter System in our models. Cleaner, greener driving without taking away from the drive – that's what you can continue to expect from Citroën.

## › ELECTRIFYING. HOWEVER YOU LOOK AT IT

Forget what you know about electric cars. Citroën Survolt combines undiluted glamour with advanced sporting dynamics, then adds a 100% electric drivetrain. Outside, LED lights, voluptuous curves, two-tone charcoal and fuchsia paintwork, and a race-inspired rear spoiler meet your gaze. Inside, a stunning blend of curved chrome, swooping glass, high technology and organic forms welcomes you to an entirely new place. But this is no simple styling exercise. At heart, Survolt is even more radical, because although it is designed to thrill, it is powered purely by silent, efficient, clean electricity.

All Citroën vehicles are designed to be 85% recyclable.

## › AIRDREAM – A BENCHMARK

When it comes to the environment we wanted to show our genuine commitment as well as our profound expertise, so we have devised a benchmarking scheme with the signature 'Airdream'. To qualify for the Airdream signature, vehicles must have an e-HDi or an electric engine.

#### › HIGH-PRESSURE DIRECT INJECTION DIESEL ENGINE

Citroën's HDi diesel engines operate with the fuel under extremely high pressure, enabling microscopically precise injection control. With this level of management it's possible to inject at different times during the same engine stroke allowing total control over the combustion process. This has allowed our engineers to reduce carbon monoxide emissions by 40%, unburned hydrocarbons by 50% and engine particulates by 60%. Fuel consumption is 20% lower than a prechamber diesel engine, resulting in an equivalent reduction in CO<sub>2</sub> emissions and thanks to the torque available at low engine speed it could be argued that driveability is now better than in petrol engined cars.

#### › ANTI-LOCK BRAKING SYSTEM (ABS)

Computer-controlled braking assistance designed to prevent the wheels from locking under extreme braking. This enables the car to continue being steered and therefore controlled during this braking incident. The Citroën C3's ABS system is further enhanced with EBA and EBD.

#### › ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

A conventional ABS system cannot account for any of the four wheels wanting to lock more quickly than the others (for example, two of the wheels may be on snow and two on tarmac). EBD reads the deceleration rate of each wheel individually and applies the ABS principles accordingly.

#### › EMERGENCY BRAKING ASSISTANCE (EBA)

As drivers we find it difficult to instinctively brake very hard, but this is often what is needed in those rare emergency situations. The EBA system recognises our 'attempt' to brake hard and in combination with the ABS and EBD systems instantly applies the maximum stopping power possible.

#### › ELECTRONIC STABILITY PROGRAMME (ESP)

This is computer-controlled traction assistance and is provided primarily through the braking systems. The ESP's control unit constantly compares where the driver intends going (through the position of the steering wheel) with where the vehicle is actually going and, if necessary, makes speed corrections to each wheel individually through braking or engine torque to keep the vehicle 'in line'.

#### › MYWAY COLOUR SATELLITE NAVIGATION

MyWay is completely integrated into the vehicle which avoids the risk of theft. The design has been created for ease of use and with steering wheel controls, navigating from your phone to the satellite navigation couldn't be any easier. MyWay allows you to define routes, stops and places of interest with the added benefit of vocal instruction. MyWay also provides live traffic updates of any congestion spots or delays. A GPS integrated aerial is built into the vehicle, to maximise the reception of satellite information; therefore permitting an accurate location of the car.

#### › ON-BOARD TRIP COMPUTER

The Citroën C3's multi-function on-board trip computer provides you with information at your fingertips. At the touch of a button you can view a range of data like fuel consumption, average speed and mileage possible at your current fuel level.

#### › RADIO DATA SYSTEM (RDS)

Traffic information on FM radio, allowing the station name and other information to be transmitted alongside audio information.

#### › VARIABLE POWER ASSISTED STEERING

A system that provides extra power assistance for a vehicle's steering at low speeds (such as turning a sharp corner) and less assistance during high-speed situations.

#### › FRONT SEAT BELT PRE-TENSIONERS

In the event of a crash, a pre-tensioner will tighten the seat belt almost instantaneously. This reduces the load on the occupant in a violent crash. Like airbags, pre-tensioners are triggered by sensors in the car's body, and use explosively expanding gas to drive a piston that retracts the belt. Seat belt pre-tensioners also lower the risk of "submarining", which is when a passenger slides forward under a loosely worn seat belt.

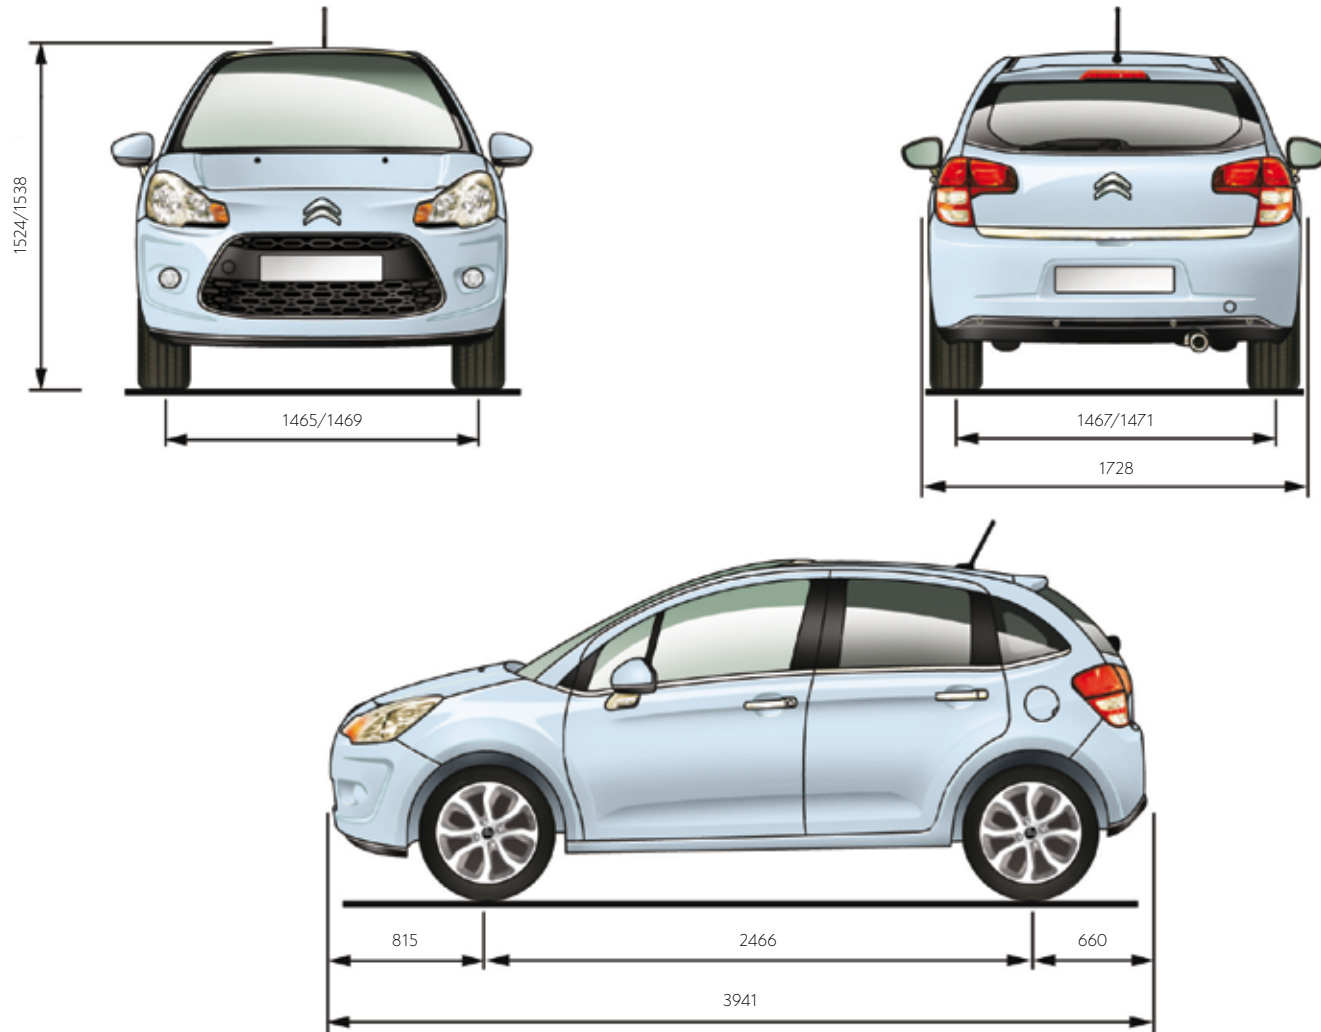

#### › ISOFIX

A standardised and more simple method for installing child seats, each seat is 'clicked' into place via a three point system. On the Citroën C3, Isofix is installed on the outer rear seats.
